Stay & Property Content

Listing content that makes people book the place.

WHAT IT IS

Content made for the property itself, not for a destination. Hosts and hoteliers on **Airbnb, Agoda, Booking.com and Traveloka** are competing on a thumbnail and a scroll. I shoot the stay the way a guest experiences it — the walkthrough, the light at the right hour, the details that actually decide a booking — and deliver both the still set for the listing and the vertical video for social.

WHAT YOU GET

- 📸 Listing photo set, edited and correctly sequenced
- 📹 Vertical walkthrough or room-tour video
- 📸 Amenity and detail coverage — the things guests scroll for
- 📹 Neighbourhood and what-is-nearby content on request
- 📄 Files sized for Airbnb, Agoda, Booking.com and social

ADD-ONS THAT APPLY

On complimentary stays. A hosted night covers accommodation, not the work. I am glad to build the stay into the quote, but it does not replace the fee. Barter-only collaborations are considered case by case, not as standard.

Starting rates only. Complexity, usage and turnaround move the figure — every quote is written down before anything is agreed.

Scarred but sacred.
